DETAILED ACTION

Reasons For Allowance

1. The following is an examiner's statement of reasons for allowance: The prior art of record fails to anticipate or show in combination a setting tool having a storage space for propellant gases and a piston guide defining a guide space having a front and rear region wherein a first valve connects the storage space with the rear region of the guide space and a second, electronically controlled valve is arranged at an outlet of the storage space for a time-delayed connection of the storage space with the front region of the guide space.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

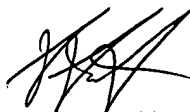

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Chirco et al, Kindle et al, Yansten et al, Bereiter et al, Kersten, and Oadini et al are cited to show related references.
